On Wednesday evening December 21st, at the home of the bride's uncle, Jack Parker, in the lower end of the county Mr. Benny Barnett and Miss Mattie Dawson, both of this county were quietly married.

destroy disease germs. Dr. Bell's Anti-Pain is an antiseptic remedy for external and internal pains, relief is almost instantaneous. Sold by all dealers.

### New Year's Day.

Sunday is New Year's day, the day for turning over new leaves. If you turn over but one leaf let it be to "honor thy Creator," being temperate, just and honest in every act of thy life, so much as lieth in you. And don't get discouraged when you may fail but "try try again."

### Not Good

for everything. Sutherland's Eagle Eye Salve is good for nothing but the eyes. If you use it and are not satisfied come back and get your 25c. You be the judge.

A contemporary laments that Dr. Cook has lost his practice. We are glad he has lost his practice of fibbing about the North Pole.

Ladies and Misses don't fail to see our new Fall and Winter line of "Queen Quality" and "Boston Favorite" shoes, we have them in Swede, Patent leather, Gun metal, Dull kid and plain kid—in both button and lace.

### Helping to Keep Good Roads.

The North Carolina Good Roads Association is distributing throughout the State cards which reads as follows:

"How to Keep This Road for Years:

"This road was constructed for your use.

"Don't drive in one track. Avoid making ruts.

"If all use one place all the wear will be in one place and make a rut.

"If you use a little care and do not drive exactly where the last wagon did the wear will be distributed, which will keep the surface smooth and the road will remain good for years; otherwise it will soon be rutted and the smooth surface gone."

It is believed that if those who use the road will give a little attention to where they drive so as not to drive directly in the same track as the team ahead of them has done, it will prevent the roads from becoming filled with ruts and will have a general tendency to pack the greater portion of the road.

### Time We Were Waking Up.

About thirty-five of the States have granted financial aid in road building and none of them have done it on such a small scale as is asked in Kentucky. These States are the most progressive in the union and show from 20 to 70 per cent. increase in their population in the last ten years, while Kentucky only shows a little more than 6 per cent. it is time that Kentucky was waking up.—Elizabethtown News.

For Coughs and Colds.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
